Mr. HAN, 1113d08

I write to you for some clarification AS I know Mr. Albertson is busy and when I meet w/ him he seems stressed and distant.

I have 8 weeks till trial and there are a lot of my witnesses who have not been contacted, not to mention we have no PT. Also I have heard nothing more on expert witnesses. I feel very strong that we need one to speak on "Shock" & what it can do to you, along w/ "post traumatic stress." I feel the witnesses that should have been spoken to months ago are key in my case, and have yet to be contacted. I also stress again the importance of my daughter as a witness.

She knows more than I thought and I feel a jury will take her testimony in account. I apologize if I seem pushy AS I want to know all to be known.

Albertson says I have a really good case, yet what I have seen w/ Discovery does not look in my favor. If you have free time this week, please come visit me. I need my mind to be put at ease. Not knowing ~~is~~ is killing me.

Sincerely,
